PRESS RELEASE

EURO AREA MFI INTEREST RATE STATISTICS: JUNE 2005

Between May and June 2005 average euro area MFI interest rates on new deposits showed mixed developments, while average euro area MFI interest rates on new loans were mostly lower in June than in the previous month.

Selected MFI interest rates (weighted averages on new business)
(percentages per annum excluding charges)

		Nov. 2004 – Apr. 2005 (average)	May 2005	Jun. 2005
DEPOSITS	Overnight deposits from non-financial corporations	0.92	0.95	0.91
	Deposits from households redeemable at notice up to and including three months	1.98	1.97	2.15
	Deposits from households with agreed maturity up to and including one year	1.96	1.94	1.95
	Deposits from households with agreed maturity over two years	2.40	2.20	2.20
LOANS	Bank overdrafts of households	9.58	9.64	9.61
	Loans to non-financial corporations up to and including EUR 1 million at a floating rate and up to and including one-year initial rate fixation	3.94	3.91	3.87
	Loans to non-financial corporations over EUR 1 million at a floating rate and up to and including one-year initial rate fixation	3.01	2.99	2.92
	Loans to non-financial corporations over EUR 1 million with an initial rate fixation over five years	4.07	3.80	3.88
	Loans to households for house purchase with an initial rate fixation over five years and up to and including ten years	4.45	4.28	4.13

Source: ECB MFI interest rate statistics.

MFI interest rates on new business: in June 2005 the weighted average rate on overnight deposits from non-financial corporations decreased by 4 basis points to 0.91%. The weighted average rate on deposits from households redeemable at up to and including three months' notice increased by 18 basis points to 2.15% (involving a reclassification; see the Notes below). In the same month, the weighted average rate on deposits from households with an agreed maturity up to and including one year remained broadly unchanged at 1.95% and the weighted average rate on bank overdrafts of households decreased by 3 basis points to 9.61%. In the case of loans up to and including EUR 1 million to non-financial corporations at a floating rate or up to and including one-year initial rate fixation, the weighted average rate decreased by 4 basis points to 3.87% in June. At the same time, the weighted average rate

on loans over EUR 1 million to non-financial corporations with the same initial rate fixation decreased by 7 basis points to 2.92%. For longer-term loans, the weighted average rate on loans to non-financial corporations over EUR 1 million with over five years' initial rate fixation increased by 8 basis points to 3.88%. For households, the weighted average rate on loans for house purchase with over five and up to and including ten years' initial rate fixation decreased by 15 basis points to 4.13%.

MFI interest rates on outstanding amounts: the weighted average interest rate on outstanding amounts of deposits from households with an agreed maturity up to and including two years remained unchanged at 1.92% in June 2005. The weighted average interest rate on outstanding amounts of deposits from non-financial corporations with an agreed maturity up to and including two years remained unchanged at 2.10% in the same month.

In June, the weighted average interest rate on outstanding amounts of loans to households for house purchase with over five years' maturity decreased by 4 basis points to 4.67%, and the weighted average interest rate on outstanding amounts of loans with over five years' maturity to non-financial corporations remained unchanged at 4.35%.

Weighting method: the interest rates on new business are weighted by the size of the individual agreements. This is done both by the reporting agents and when computing the national and euro area averages. In addition to changes in the actual interest rates, changes in the euro area average interest rates on new business therefore reflect changes in the weights of the new business per country for the instrument categories concerned.

Notes

- *In addition to the monthly euro area MFI interest rate statistics for June 2005, this press release incorporates minor revisions to the data for previous periods. It also incorporates a substantial reclassification, as of the reference month June 2005, of instruments in the "deposits redeemable at notice of up to and including three months" category as "overnight deposits" in a euro area country, which is reflected in the increase in the average euro area rate on deposits redeemable at notice of up to and including three months between May and June 2005.*
- *New business refers to any new agreement between the customer and the MFI, while outstanding amounts refer to the stock of all deposits and all loans at a specific moment in time. Three instrument categories – overnight deposits, bank overdrafts and deposits redeemable at notice – form a separate group for which interest rates on new business and on outstanding amounts coincide.*
- *More detailed information on MFI interest rate statistics is available under "MFI interest rate statistics" in the "Statistics" section of the ECB's website (<http://www.ecb.int>).*
- *The corresponding business volumes for each of the MFI interest rate categories are shown in Tables 2 and 4 of the Annex.*

1) In the above table 'up to' shall mean 'up to and including'.

2) For this instrument category, new business and outstanding amounts coincide. End-of-period rates.

3) For this instrument category, households and non-financial corporations are merged and allocated to the household sector, since the outstanding amounts of non-financial corporations are negligible compared with those of the household sector in all participating Member States combined.

4) The annual percentage rate of charge covers the total cost of the loans. These total costs comprise an interest rate component and a component of other (related) charges, such as the cost of inquiries, administration, preparation of documents, guarantees, etc.
